## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of Group I (claims 1-7, 14-15), Species A1 (claims 1-4, 6-7 and 14-15) in the reply filed on 10/19/2004 is acknowledged. No argument(s) found in the response. Applicant did not distinctly and specifically point out the supposed errors in the restriction requirement.

The requirement is still deemed proper and is therefore made FINAL.

### ***Drawings***

This application is in condition for allowance except for the following formal matters:

Figure 3, 4, 5A, 7A and 7B (see paragraph 0045 on page 13, 0046 on page 14, and 0050 on page 15 of the disclosure) should be designated by a legend such as -- Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the

Art Unit: 2829

description: elements "13" and "21". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gresens on 12/09/2004.

The application has been amended as follows:

Claims 8-13 and 16-17 have been canceled. Because they reads on non-elected invention and species. They can't be rejoined because different invention claimed, which was not examined.

***Allowable Subject Matter***

Claims 1-7 and 14-15 have been allowed.

The following is an examiner's statement of reasons for allowance: No prior art has been found to meet the limitation of claims 1-7 and 14-15 calling for a device for measuring the supply current ( $I_{DDQ}$ ) to an electronic device under test DUT (5), comprising a connection (51) between one terminal other than gate or base of two series connected transistors (22/24 or 31/32) and a source of MOSFET (22) as further defined at claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
